

I Trust Free Will Service

Protect your family, today. Make an Islamic Will with I Trust. It is a simple and fast process.

Allah the almighty said "It has been ordained upon you, when death is near one of you, leaving wealth behind, to make a will in favor of parents and close relatives, impartially. This is incumbent upon the pious." —Quran 2:180

Our Holy Prophet Mohamed said, "It is not proper for a Muslim to pass two nights except that his/her (last) Will and Testament is near his/her pillow".

Because the timing of death is uncertain, it is important that you make a Will so that you pass what you owe to whomever you wish in an efficient and safe manner. Not having a Will is costly as well as problematic from both Islamic and legal points of view.

Thereby, I Trust Waqf organization has taken this initiative to provide free Will service from which the members of this community can benefit.

I Trust Will was extracted from various authentic sources, reviewed and revised to meet the present needs that is both Islamically and legally acceptable.

The will, once signed, will be sealed and kept in a safe secured bank storage and will be only opened after your demise. In this way, the assets will not go to waste and your debts will be cleared, as instructed. If the Will clearly stipulates all your wishes, then there would no room for any wrangling or legal conflicts.

No one knows when death comes. So, I Trust is humbly suggesting that you fill and sign your Will today.
